

Mayline Professional Tables

MAYLINE® GROUP
Kwik-File · Mayline · Tiffany Industries

When it comes to experience in designing and building premium quality workplace furniture, most companies measure their longevity in terms of a few years. At Mayline, our history is traced back over 50 years, to when the first Mayline drafting table was designed.

Today, Mayline leads the industry by offering the most complete line of drafting tables including our power-height and tilt Futur-Matic® tables and our ultra-practical Ranger® Steel Four-Post tables.

Forester & Wood Four-Post Drawing Tables

WOOD FOUR-POST DRAWING TABLE A natural complement to the Ranger line, these attractive wood tables look great in any environment and coordinate well with our Wood Plan Files. The Wood Four-Post's frame is crafted from top-grade Appalachian Red Oak. Joints are reinforced with bolted steel dowels for extra precision and stability. The work surface can be tilted up to 50°. Five different top sizes are available, with the largest size being 43 1/2" x 84". Models are offered with optional shallow, tool and auxiliary 2-drawer units.

FORESTER DRAWING TABLES An excellent student table, the Forester features select hardwood frame and scratch-resistant top that tilts up to 50°. Four top sizes available, as well as two height options. Front storage compartment, footrest and accessory tray optional.

Ranger® Steel Four-Post & Economy Ranger Drawing Tables

RANGER STEEL FOUR-POST DRAWING TABLES Perhaps the strongest table on the market. The Ranger Steel Four-Post Drawing Table is extremely stable and features a tiltable work surface (up to 50° from horizontal). Five different top sizes are available, ranging from 37 1/2" x 48" through 43 1/2" x 84". All steel Ranger drawing tables have scratch-resistant tops, with steel end cleats.

ECONOMY RANGER Features an economical thermally-fused melamine top in gray. Models available with and without shallow plan drawer and tool drawer. Tool drawer complete with lock. Steel auxiliary 2-drawer unit also available.

Futur-Matic Drawing Table

Futur-Matic® Drawing Tables

FUTUR-MATIC T/C DRAWING TABLE

The ultimate in styling, power and convenience. Features fully automatic electric lift and tilt adjustment. Heavy-duty motor/actuator drive mechanism supports 150 lbs. when tilting and up to 250 lbs. when lifting. Height adjusts 18" with maximum table height of 48". Tilt has 88° angle of adjustment. Convenient finger-tip Touch Control located at front edge of drawing board for all adjustments. Scratch-resistant surface with steel end cleats and pencil trough. Base constructed of heavy-gauge steel, with built-in footrest for comfortable use while seated. Optional power pack for operation on 220V service (European line voltage).

FUTUR-MATIC® DRAWING TABLE

All the features of the Futur-Matic T/C except with manually-controlled, counterbalanced tilt adjustment.

Light Tables

All Mayline Light Tables have self-contained light box with translucent 18" acrylic diffuser, ¼" clear float glass and Maple frame with natural finish. Other standard features include UL Listed, full-range electronic dimming controls with range of 0 to 325 foot-candles. Illumination provided by either four 30W or four 40W cool white, rapid-start fluorescent bulbs (supplied). Vented ballast sections keep glass surfaces cool, even when left on all day.

FUTUR-MATIC® LIGHT TABLE Electric height adjustment of up to 18" and either manual or electric tilt up to 88°. Two top sizes available, 37½" x 48" and 37½" x 60", with two glass sizes, 30" x 36" and 30" x 45", respectively. Features similar to other Futur-Matic tables.

RANGER STEEL FOUR-POST LIGHT TABLE Sturdy steel four-post design with manual tilt up to 50°. Features similar to other Ranger Steel Four-Post tables. Standard unit comes with tool and shallow drawer. Same top and glass sizes as Futur-Matic Light Tables.

WOOD FOUR-POST LIGHT TABLE Attractive wood construction with manual tilt up to 50°. Features similar to other Wood Four-Post tables. Three models offered: Without drawers, with tool drawer only, and with tool drawer and shallow drawer. Same light box units as other tables.

FORESTER LIGHT TABLE Wood Four Post light table with removable portable light box top. One size offered, 23 ¾" x 36 ¾".

Furniture to fit
any need
and budget.

HAMILTON FOUR POST TRACING TABLE Kiln-dried Appalachian Red Oak frame. Special screened-on frosted finish diffuses light to eliminate glare. Glass size 24" x 36 ¾"; Top size: 32" x 48". Tilts up to 50°. Illumination provided by two 30-watt, 36" T-8 fluorescent lamps.

Split Top Drawing Tables

These tables are ideal for a variety of end users ranging from students and architects to electricians and engineers. This Split Top drawing table is available in two widths, including an 18" wide fixed surface perfect for computers, personal laptops or additional lighting. Split Top models are offered with optional lockable tool drawer and auxiliary 2-drawer units.

Dual Adjustable Drafting Table

The Dual Adjustable table is perfect for today's changing environment. A locking cam handle easily allows you to tilt the table up to 88° while allowing you to raise or lower the table to meet additional needs. The Dual Adjustable table is available in two sizes and in your choice of a Birch woodgrain or a Fox Gray thermally fused melamine with steel end cleats and paper apron.

Port-A-Boards and ProKits

For the ultimate in drawing board portability, Mayline offers **PORT-A-BOARDS** and **PROKITS**. Great idea for students or those doing work on-location or at home. Boards feature padded carrying handle, folding legs and no-mar bumpers. ProKits also include work surface "grippers" and a choice of transparent kit rule or kit rule with Armoredge.

The original standard for
productivity
still lives.

Straightedges

MAYLINE STRAIGHTEDGES offer three functional types of tracking systems: Standard Parallel Ruling Straightedges lay flush on the drawing surface. Mobile Parallel Ruling Straightedges incorporate metal or Delrin rollers which alternate the full length of the straightedge and allow the straightedge to ride smoothly over the surface of the drawing. E-Z grip cap provides simple, fingertip movement of straightedge.

Mayline Straightedges available in a wide range of lengths, with various options.

Art Tables

Stoway and Minuteman **ART TABLES** are lightweight with tubular frames. These tables are standard with a white melamine top and have a height adjustment range of 15". Both tables are perfect for almost any office or home setting.
